

## APPENDIX B

### EXAMPLES OF WORK PERFORMED IN THE CONSTRUCTION

- Conditioning or installations
- Air conditioning
- Alarms - Fire or safety
- Expansion of civil works
- Sanding of metallic components and structures
- Diving - Industrial or commercial
- Cabling – Sub aquatic
- Ceilings
- Connections - Underground
- Conservation - Paint and cleanup works
- Controls - Erosion
- Wrecking or demolition - partial or heavy
- Drains
- Disassemble - dismantle
- Dredging
- Drainages
- Construction of civil works and similar works
- Electrification
- Excavation
- Installation of cranes, equipment and machinery
- Pipe laying - general
- Transmission lines
- Maintenance of civil works and structures
- Technological modernization of systems and components
- Assembly and disassembly of prefabricated elements
- Earthmoving and land filling
- Drilling for geological exploration and for widening or deepening
- Painting of buildings, offices, shops, bridges, storerooms and structures
- Power generation plants
- Preservation of metallic components and structures
- Bridges - repair and maintenance
- Rehabilitation
- Fills
- Repair
- Dams
- Sanitation
- Fire-fighting Systems
- Welding
- Electric substations
- Towers
- Transformation
- Beam-ducts
- Blasting
- Riprap
