1050.0400	AR MW MW MW	1-Apr-16 2-Jan-14 1-Apr-16 15-Feb-20	<p>Auction Process for Transit Reservation Slot:</p> <p>(1) Two booking slots different from the others are available through an auction process for supers and regular vessels, only during the 3rd period and under any condition of the transit reservation system in place at the time. These slots will only be available once all the normal booking slots available for that date have been awarded, be it for supers or regular vessels, independent from each other and subject to the same requirements as the rest of the slots offered under normal circumstances.</p> <p>In addition, slots available from cancellations, date changes, or any other reason during the third reservation period, will be offered via an auction process, provided that all slots for a specific vessel category (neopanamax, supers or regulars) have been awarded. If there is no demand for the slots, they will be available for any other interested vessel, on a first-come-first-served basis once the auction closes.</p> <p>Since the auctioned slots could require that vessels meet certain requirements such as transit direction and vessel restrictions, these conditions will be announced when the auction is posted.</p> <p>(2) The cancellation charge for an awarded auctioned slot shall be 90% of the winning bid.</p> <p>(3) Vessels awarded the auctioned slot have the same options as those with conventional booking slots, such as requesting same-day transit due to late arrival, swaps and and substitutions, except changes in transit date. In the case of late arrivals the appropriate percentage of that tariff will apply (based on vessel dimensions).</p> <p>(4) An auction slot awarded to a fully integrated barge shall be assigned to the larger craft; the booking of the smaller craft shall be computed based on the normal transit reservation tariffs.</p>
